SOUTH PARIS

High School Graduation

Forty-six seniors were graduated from the South Paris High School and received diplomas at Association Hall on the evening of June 14. This is the largest class in the history of the town and a percentage far above the usual number. The stage was decorated with plants and flowers and carried out the class color scheme of wild rose and moss green. The same effect was produced in the class motto above the stage, "Deeds, Not Words." Each member also wore the colors.

The seniors, the faculty and school board occupied seats on the stage with the Juniors as escort in the march. Frank B. Maxin was marshal of the graduates. March was played by the high school orchestra which played several selections during the evening. Program was as follows:

Invocation.....Rev. J. L. Wilson
Salutatory, "Life's Canvas".....Josephine Alline MacDonald
Class History.....Miss Mary Fletcher
Essay, "The Stepping Stones to Success".....Mary Kathleen MacDonald
Music.....The Stepping Stones to Success
Oration, "Conservation of Natural Resources of Maine".....Henry Whitman Morton
Address to Undergraduates.....Carl Hastings MacPhee
Class Prophecy.....Phyllis Mae Edwards

After the diplomas were conferred, Shirley J. Rawson of Mexico, representing the Alumni Association presented the scholarships of fifty dollars in gold to Anna L. Clifford and to Ronald E. Simpson. To receive honorable mention were Edith Lovell, Martha Fletcher, Eileen MacDonald, Marjorie Edwards, Pearl V. Burnell, Robert N. Brackett, Carl H. McPhee and Henry W. Morton. These rewards are based on a combination of rank in studies and in school activities.

The class ode was written by Glenna Starbird and the music composed by Helen Barnes.

Banquet and Graduation Ball

The high school and Oxford Normal Institute Alumni Banquet was served at Paris Grange Hall, Friday evening at 6:30.

The dining hall and tables were decorated with the class colors. Music was furnished by the Orchestra of Lewiston and the graduating class with the Alumni, marched to their places in groups.

After the banquet, Raymond Gates acted as toastmaster and introduced the speakers who were Supt. A. B. Hayes, Principal C. E. Taylor, Mich., Dr. F. W. Rounds of Boston, Roy E. Cole, Chelsea, Mass.; Alton Porter, Hadley; Shirley J. Rawson and Mrs. Isabelle Morton Fish of Santa Barbara, California.

The following officers were elected at the business meeting:

Pres.—Harold C. Fletcher
Vice Pres.—Earl R. Clifford
Treas.—Elizabeth Muzzey
First Assistant Sec.—Mora Murch
Second Assistant Sec.—Raymond Gates
Ex. Committee—Arthur V. Bolster, Eva Walker Howard, Ivy Richardson Morton, Advisory Board—Bertha Swift Abbott, Evelyn Wright, Harold Abbott.

The ball in Association Hall commencing with a grand march at 9 o'clock was a brilliant affair. Marjorie's Orchestra was in attendance and a large crowd danced merrily until a late hour.

Mr. and Mrs. W. B. Strickland are on a two weeks auto trip to Schenectady, N. Y., where they will visit the family of Roy E. Strickland.

Fred C. Davis has disposed of his Ford and bought a Studebaker Six of W. F. Knight Co.

Roger Davis is on a business and pleasure trip to Montclair, N. J., and New York City. He will be away about ten days. Mrs. Davis is in charge of the store.

Twelve Boy Scouts from the South Paris Troop attended the County Field Day at Dixfield. They went Friday afternoon in automobiles driven by Scoutmaster William Harriman and Henry Morton, returning Sunday afternoon.

The troop tied Hanover-Burnford Point for fourth place in the contests, but as there were no prizes for that place, the rubber was not decided. The boys attending were Harland Hammond, Winifred Bennett, Henry Sweet, Harry McGilley, Morton Parsons, Lawrence Bates, James House, Richard Crockett, Frank Card, Albert Morse and Kenneth Davis.

George F. Eastman is on a business trip to New York, Philadelphia and Washington.

Mrs. W. M. Lowellyn of Isleboro has been the guest of her parents, Mr. and Mrs. Benjamin Sweet.

Joseph A. Noyes is at Peak's Island as chairman of the trustees in charge of the Elizabeth Maine Regiment cottage there. He is to make arrangements for the summer business.

Levi G. Durand and Madeline M. Temple both of Limestone, were married Saturday in Portland and will reside in So. Paris. Mr. Durand is resident manager of the Grand Theatre and has been here about two weeks.

Neighborhood Advice

Freely Given by a Norway Citizen.

When one has suffered tortures from a bad back and found relief from the aches and pains, that person's advice is of untold value to friends and neighbors. The following neighborhood advice comes from a Norway resident.

M. W. Sampson, Prop. boat transportation business, 19 Bridge St., Norway, says: "A cold settled on my kidneys and brought on attacks of backache. I was lame and unable to move any way, the pain in my back was so severe. My kidneys didn't act right and I had dizzy spells. A friend who had used Doan's Kidney Pills with good results, advised me to try them, so I went to Stone's Drug Store and got three boxes. After I had finished taking them, the trouble left and I have been free from kidney disorder since."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Sampson had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

William Fox presents

"The Town That Forgot God"

Morning World: "We have been proceed-
ing on the theory for some months that we
were storm proof, as far as motion pictures
were concerned. But for the first time since
we got up and yelled for someone to rescue
Lillian Gish in 'Way Down East,' we were
face to face with a storm so terrifying, so ca-
tastrophic, so beastly real, that we shivered in
our boots and actually forgot that such a

thing as a motion picture camera had ever
been invented."
N. Y. Commercial: "The most realistic
and vivid storm and flood scene ever shown
on the screen has broken loose in the Astor
Theatre where William Fox is presenting for
the first time 'The Town That Forgot God.'
It is the crowning achievement in spectacular
water and storm effects."

Oil Cook Stoves and Ovens

And don't compare the modern New Perfection with the old types of oil stoves. It is vastly more simple to take care of, is strongly built of durable materials, produces a clean, intense flame, free from odor, is unusually attractive and easy to keep clean. There are no coal hods, wood baskets, ash pans or coal dirt in New Perfection kitchens. And how happy the 4,000,000 New Perfection users are to be rid of all this drudgery.

MY PRAYER

Let me but find it in my heart to say,
In field or forest, at the desk or loom,
In peaceful room,

Of all who live, I am the one by whom
This work can best be done in the right way."
Then I shall see it not too great, nor small
To suit my spirit and to prove my powers:
Then shall I cheerful greet the laboring hours
And cheerful run, when the long shadows fall.
At eventide, to play and love and rest,
Because I know that for me my work is best.

STORY OF BY-GONE DAYS

Twenty-Six Years Ago
C. B. Cummings & Sons have rented for five years, from the Oxford Light Co., the upper privilege and mill. The light company will repair the grist mill and put new machinery in the saw-mill. Work on Electra Park between Norway and South Paris is progressing rapidly. Underbrush has been cleaned out and the 30x40 pavilion nearly finished. A tennis court, croquet grounds and refreshment booth are to be featured.

Norway Fire Alarm system was tested Saturday and found to be O. K. The corporation is divided into five districts, each having an alarm box. Clappers for the bells are installed in the town clock tower and in the Methodist and Congregational churches.

The Oxford & Welchville Electric Railroad to connect with the Grand Trunk was organized Tuesday at Auburn. The directors are John B. Robinson, George Hazen and E. F. Richmond all of Oxford. E. W. Eastman, Chas. L. Turgeon and Geo. W. McFadden of Auburn, Fred C. Wilson, Boston. Capital stock \$25,000. Amount subscribed \$8,000.

Fire chief Geo. F. Hathaway commenced testing the alarm at 11:55 A. M. each day. Two strokes will henceforth indicate that everything is all right and the system in working order.

Frank A. Stearns returned from the Maine Branch L. A. W. meeting with several prizes for fast bicycle riding. He won first in a half mile race Time 1.44 and 1.26 1/2, with O. E. Towle of Lewiston on Tandem, a half mile race was made in 1.20. Clarence B. Pike of Norway won the mile state championship. Time 3.04 1/2.

The assessors for the town of Paris find 723 horses; 1039 cows; 100 oxen; 206 three-year olds; 310 two-year olds; 414 yearlings; 989 sheep; 216 swine and 69 bicycles.

Walter L. Gray has returned to his home at South Paris for the summer. He has been principal of Brighton high school. The 1897 graduating class numbered eight, two of whom enter college.

F. W. Walker has severed his connection with the grocery establishment of Henry J. Bangs. He will push the sales of a drip pan for hogheads which he recently invented.

NORWAY AND VICINITY

Cox-Canwell

A pretty and dignified wedding took place at the Methodist Church, Saturday afternoon at 2 o'clock when Mrs. Mary Canwell of Norway and Aaron E. Cox of West Paris were united in marriage. Rev. T. C. Chapman, pastor of the church, officiated, using the double ring service. One hundred and more invited guests were present.

The march was played by Eldith Joslin and the contracting parties, accompanied by Mr. and Mrs. Ray Frost, nephew and niece of the bride elect, proceeded down the center aisle to the chancel, where they were received by the clergyman. The bride wore navy blue tulle with gray embroidery and blue hat trimmed with gray.

The decorations in charge of Mrs. Allie Monk included bridal wreath, peonies, yellow iris and beautiful field blossoms. These were tastefully arranged about the altar and along the chancel.

Immediately after the ceremony the bride and groom with the attendants received congratulations and all present retired to the Community Hall, an annex to the church, where an informal reception was held. Decorations on a table in the center of the hall were a tasteful grouping of pansies, yellow iris and ferns. Refreshments were in charge of the nieces of the bride and groom. A wedding cake, the gift of Mrs. Stephen B. Cummings, was cut and served by Mrs. Ray Frost. The gifts were many and included silver, cut glass, china, pyrex, linen, aluminum and other useful articles. After congratulations and a social hour, the couple departed amid good wishes and confetti, for an automobile trip through the mountains. Mrs. Cox wore a blue tulle traveling suit with hat to match.

On their return they will occupy a cottage at Lake Penesseewassee for two weeks, after which they will be at the Water Street home, Norway.

The bride is from one of Norway's oldest families and spent her girlhood days on Frost Hill, named for her ancestors who settled there a century and more ago. She is an active member in the Methodist Church and has many friends, both old and young.

The groom is a well known and respected citizen of West Paris. He is a dealer in coal and wood and is engaged in general trucking.

Shoemakers Won First Match

The first match at Parrin's Bowling Alley was run Thursday evening with a team from Oxford hurling against the Lesters and Finishers of the Carroll-Jellerson Shoe Co. Oxford sent up a clean cut outfit and a good line of bowlers considering they have no alley for practice nearer than Mechanic Falls and Norway. The Norway Shoemakers won by 15 pins with W. Olmstead highest for three string total. He also broke the alley record in the second string with 139. Another match between the teams is being arranged as all concerned are good sports and enjoyed the first clash.

The VETERAN MOTORIST gives a few rules of the road

"Slow down on approaching any railroad crossing. Look both ways and listen, being particularly careful where there are two or more tracks, because of trains in opposite direction."
(Am. Railway Ass. Safety Section)

WHY IS IT, I WONDER, that you still read about so many automobile accidents at railroad crossings? With the thousands of smashed cars and undertakers' bills caused this way, you'd suppose that every motorist would put on the old thinking cap when he spots a crossing.

"I saw a smash once, and that was enough for me. No more taking chances for Yours Truly after that, or 'hoping' there isn't a train coming. You can't absolutely trust anything but your own eyes to tell you whether the track is clear or not. The flagman may not be on duty when you happen along. The automatic signal may be out of order. The train may be coasting quietly down a grade toward the crossing. There are a dozen 'mays', and 'may not's', and 'ifs'.

"No siree! Life's too short and sweet to take blind chances at grade crossings—when it's so simple and easy to make sure. My tip is: always assume there is a train coming. It is better to be wrong than to have your picture in next day's paper—"Victim of Auto Wreck."

SOMETHING TO BE AVOIDED

A man died the other day who was so prominent that probably every newspaper in the country had printed an obituary, and humbly bowed to the inscrutable ways of providence in taking so good a man.

The writer talked lately with the man's closest friend, who said the untimely death was due to the club habit.

The man loved the club idea. Almost every day and night he appeared at some club affair, and ate too much of unsuitable food! Banquet food is nearly always unfit for human consumption. He loved to be called upon to speak, and utter beautiful nothings. He loved to shake hands with the amiable asses who make up the usual club membership, and hear their polite, meaningless words. The man attained distinction late in life, and so loved it that he tried to crowd into his later years all the applause he had missed between thirty and sixty. He was repeatedly warned by physicians and real friends that the club habit was "getting him," but he continued in it.

One day, recently, a large audience gathered at a club affair because this man was advertised to speak. When the hour came for the speaking, a note was handed the chairman, who arose and said, "Gentlemen, I regret that the speaker for this occasion cannot be present; he has just expired from stomach trouble."

Will the vast thousands who belong to the vast numbers of foolish clubs heed the warning, eat moderately of good food at home, and avoid in future the foolish puffs usually heard in club addresses?

Put Out Your Tongue.

The latest science, "called glosso-mancy," purports to read the person's character by the size and shape of the tongue. According to glosso-mancists, those who possess short and broad tongues are apt to be untruthful, while people whose tongues are short and narrow are sly and bad-tempered. When the tongue is long and broad, it is a sign that its owner is inclined to be a gossip. A tongue that is long and narrow denotes a frank, open disposition. Girls with small, round, plump tongues possess trustful and affectionate dispositions; but men with similar shaped tongues are apt to be inconsistent. What glosso-mancists term the rectangular type of tongue—one that is almost square in shape—is indicative of a strong, virile nature. Men with these shaped tongues are ambitious, active, and likely to get on in the world. Square-tongued women, however, are likely to be self-assertive.

Not OUR Job --- But YOURS

... the new money that public utility companies require... does not go for the purpose of making more money for the people who have already invested their money in the business... the new money is not to enhance the value of the property... but it is to take care of the additional service that YOU PEOPLE ARE CALLING FOR.

"It is important to YOU... when these utilities call for this capital to enlarge their plants to take care of YOUR growth and YOUR future business, THAT THEY GET IT."

"It is infinitely more important to YOU than it is to the utilities, that they get it."

Cuts Better Lasts Longer

You will appreciate the John Deere Mower the moment you see it in action. You will notice particularly its simplicity, its great cutting power and the ease with which it is handled. These advantages, combined with the extra years of service it gives, makes the John Deere a mighty profitable mower investment.

JOHN DEERE MOWER The Mower with the Balanced Gears

The driving gears on the John Deere are balanced—one set offsets the thrust of the other set. This eliminates side wear and strain. This mower transmits maximum power to the high grade carefully-fitted knife—that's why the John Deere does a better job of cutting and pulls lighter.

Another feature—if after years of use, lag develops in the cutter-bar, this can be taken out—the bar is aligned by a simple eccentric adjustment. The John Deere handles easily. The bar can be raised high with the foot lever to pass over ordinary obstructions. With

the hand lever an extremely high lift can be secured quickly and easily.

It's no job to keep the John Deere in good running order. All parts are easily replaced; adjustments easily made—the simplicity is a real feature.

Be sure to see this mower before you buy.
It's the best mower we have ever seen.

Also, John Deere Hay Loaders, Side Delivery Rakes and Haying Machinery of all kinds.

BOY SCOUT NOTES

Western Maine Scout Rally
Saturday, June 30, is the date selected for a meeting and field day at Pettengill Park, Auburn. Scouts from the counties of Androscoggin, Kennebec, Franklin, Oxford, Cumberland and York will gather under the auspices of Auburn Community Service. Directors in charge will be Philip LeBoutillier of Auburn, Harold C. Perham, Oxford County Council B. S. A., and Whitman E. Smith, Portland Council B. S. A.

This rally is the first of its kind to be tried out in Maine and a grand good time may be expected, with the motto "The Open Door and No Favor Shown." Any troop in the state is welcome. Ideal camping grounds with a wood supply and good spring water are among the natural requests for comfort and health. Scouts may drop in Friday and remain over Saturday night by bringing tents. Banners, trophies and exhibits should be brought for exhibition in a large tent.

Field sports commence early Saturday forenoon, to include 50 yard dash; standing broad jump; relay race (5 men to a squad, one squad to a troop); high jump, obstacle race, antelope rope race (6 scouts to a team, tenderfoot only); throwing baseball (one boy to a troop); one hundred foot bag dash (3 men to a team to a troop); tug of war tournament between troops (semi-finals and finals).

Dinner and speeches from 11 a. m. to 1 p. m.

During the afternoon Portland Council will give a Bugling demonstration and a kite contest for high flying will be staged, (box kites not allowed). First Aid demonstrations will be in competition of squads to include roller and triangular bandaging races, splinting race, stretcher race and signalling race.

Knot tying contests, Scout Pace demonstration (open to Tenderfoot only), two miles cross country message relay race, bridge building, cooking exhibition and other scout craft stuff will be held in open competition.

Exercises will close with Pyramid building, scout oath, laws and pledge of allegiance to the flag, bugling and taps by the Portland Council.

Probably more definite information may be obtained from your scoutmaster or from scout executive Harold C. Perham, West Paris.

NO HIGHWAY WORK TO BE DONE SUNDAY

Gov. Baxter recently received a communication from a Methodist Conference in York county asking that Sunday work on the State roads be forbidden, except in cases of emergency.

In the same mail the following letter came from a citizen of Massachusetts who favored Sunday road work and urging the Governor to "pay no attention to these fanatics in your efforts to do something to improve the roads, all of which decidedly need attention." Gov. Baxter already had taken the matter up with the highway authorities, for he opposed any work being done on the roads of the state on Sunday, unless in extraordinary cases where there is danger to life and property.

In his reply to the Massachusetts critic Gov. Baxter said:

"I do not consider as fanatics the members of the Methodist Conference, who, I understand, are sending me a communication."

"Altho the roads in Maine, like those of every other state, need to have work done upon them, I am of the opinion that six days a week are enough and the seventh should be observed in accordance with the long standing traditions of New England."

"The state highway commission is in accord with me and regardless of hostile criticism from within or from without the state, there will be no work done on Maine roads on Sunday if I can prevent it."

Norway Advertiser, \$1.50 a year.

"I'd like to hear the other side," is the comment of the man listening to an account of one side of a quarrel.

FROM FLORIDA TO MAINE

By Lydia Lord Shedd
We spent one night at the "New Blair Hotel in Ellsboro, N. G. a splendid hotel with every modern convenience. Made a short stop at Court House Square and the central Filling Station, N. O. where we found some fine refreshments, as well as oil, and gas for the machine. Our 9th stop was in Bowling Green, Va. where there were many Tourists camps. A very pretty little place. We found accommodations at a private house. Some good stores in this place where refreshments of all kinds can be had at a reasonable price, and first class goods.

Saw the State Capitol of Virginia. This building dates from 1789 and is designed after an ancient Roman temple. The two wings were added in 1906. Here Aaron Burr was tried for treason in 1807. Here sat the Congress of the Confederate States. Near the Capitol is a beautiful statue of Washington. The beautiful and historical Richmond, Va. Here is the handsome State Library Building, erected in 1895. On the lower floor is the court room of the Supreme Court of Appeals. The Law Library and offices of State Officials. The entire third floor contains the State Library with many portraits and other objects of interest. This building is surrounded by grand old trees, and many beautiful flowers.

City Hall on Broad Street is a wonderful building constructed of the beautiful Virginia granite, built in 1894, costing \$1,500,000. Many trees about the grounds, offices of Chiefs of City Department, and Municipal Courts. From the balcony to the clock tower is 180 feet. Many other buildings of beauty, too numerous to mention.

Virginia is a beautiful rolling country. The wonderful Blue-Ridge Mountains are seen in the distance along our way. Some of the loveliest views we ever saw were seen from some of the hills, lakes and rivers with grand old forests in between, green fields and pretty cottages—scenes we shall never forget. Here is seen the Virginia fence laid with split rails and the Tagarter fence.

The lumber is piled in a V shape here in most places. This seemed to us one of the fairest states we have seen in the South. We never tired of the changing scenery. Here Abraham Lincoln worked splitting rails for the famous Virginia fence when a boy. The rails are laid in open squares, the same old way. Here one sees many colored fishermen, girls and boys, always with a good string of fish of many kinds—a happy and contented class of people.

In the famous Shenandoah Valley in Luray, Virginia are the beautiful Caverns of Luray. Three times of these wonderful caverns. They were discovered in 1878. The most famous cave in the world. Fifty thousand people visited this cave during the past year. At the entrance are glittering stalactites, grand columns a thousand tints, cascades of snow white stone, some pieces like beautiful flowers, some like animals, others like vegetables of various kinds. Electric lights serve to enhance the scene. There are cement walks, staircases, bridges, and iron railings have been laid to make the passages convenient.

The temperature is the same, summer and winter, very comfortable always. Here are many apartments named in honor of Plato's chasm, a wide crevasse in the walls where stands a draped image, "Elf in Raiment" an "Open" space four hundred feet long, one hundred and twenty-five feet wide. Hovey's Hall is a wonderful sight. Granite Hall is very large with many chambers. Large sentinel shaped forms loom on every side of the beauty of Titania's Veil. Here are the crystal waters of Diana's Bath. The Saracen's tent, the Cathedral where a grand organ stands in stone, the image of one. The Bridal Chamber is a lovely sight. Hades has a wonderful formation and has many beautiful lakes and contrary to the name is a lovely place. The Ball Room is wonderful for its strange furnishings and beautiful ones. Campbell's Hall is named for the discoverer of the cave. The ornaments are something wonderful.

PORTER CENTER

Fred Day, who has been in the Maine General Hospital, has returned to his home.

Mr. and Mrs. Roscoe Garland of Kezar Falls are moving onto the T. M. Libby farm.

Mrs. Nat Burnell was at Cornish, Sunday.

Mrs. Charles Garland of Kezar Falls spent a few days with Mabel Norton.

Nora Durgin and Dorothy Burnell spent the day Wednesday, with Mrs. Frank Fox.

Mr. and Mrs. Frank Pendexter and daughter were in town, Sunday.

Mr. and Mrs. George Miller and son called on Mr. and Mrs. Fred Day, Thursday evening.

Myrtle Fox spent the day, Thursday, with M. M. Wallace Durgin.

Ella Burnell went to Portland, Tuesday, to the Shaw trial.

ICE CREAM PLANT

A portion of the property formerly owned by the New England Cold Storage Company on Commercial Street, Portland, has been bought by the Simmons & Hammond Mfg. Co.

Mechanics are busy remodeling the building to afford increased facilities for the manufacture of S. & H. Quality Ice Cream and Maine Maid Sweets.

The very latest ice cream making equipment is being installed throughout, including the fitting up of a Hardening Room, which will increase the capacity from 6,000 to 20,000 gallons.

A special machine for washing returned cans, assuring absolute cleanliness; and facilities for icing 300 gallons of ice cream at one time are being provided.

On completion, Maine will have what experts assume is "the finest ice cream plant in all New England."

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. Catarrhal Deafness requires constitutional treatment. HALL'S CATARRH MEDICINE, a constitutional remedy, Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing inflammation and restoring normal conditions.

NORTH WATERFORD
Spasm No. 103 was a success playing to capacity crowd, June 9th, with unusual enthusiasm among the dancers. The maple floor is one of the best, dancers from Oxford, Bridgton and Bethel rendered the same variety, these "rackets" are decidedly different, having congealed and contras at the same time. Although two-thirds of the dances are fox-trots and waltzes, Pliny's Festive Fiddlers never handled new music better, making a new record for endurance. As there were many encores, Von Allen and Nora Lebrake served delicious ice cream and were quickly sold out at intermission. Every two weeks for several years the Grangers have been giving these good times and June 23rd will be the 14th in the series, hundreds of dancers will remember them with pleasant recollections.

Rice Neighborhood
Burnham Rice and Guy Rice commenced Monday June 11 to work on the stone road at East Waterford.
Helen L. Fitts of Waterville, Me., is stopping a short time with Mrs. C. P. Saunders.

Mr. and Mrs. Howard Knightly and Warren Knightly were at the home of Mrs. E. B. Hersey's on Sunday afternoon, June 10.

School has finished at Bridgton Academy and the scholars are now at home.

Mr. and Mrs. C. P. Saunders, Mrs. Chas. Hersey and Leroy Hersey went to hear the Junior Debates and Sophomore Essays at Bridgton Academy, Tuesday evening, June 12.

Box Martin is hauling Chas. Sander's bolts to Bridgton with a truck.

Mell Knight went to Casco Sunday the 10th to get Mrs. Martha Black. She is visiting at Walker Nason's.

Four of the Sunday School scholars were presented with Bibles at the service Sunday afternoon, viz. Leona Kimball, Ragnar Brown, Elizabeth Holt and Helen Orouse.

Henry T. Finck and family of Bethel were at E. B. Hersey & Son's recently. Mr. Finck lives in New York City and Mr. Hersey starts many flower and tomato plants for his summer use.

Harry Lowe lost his house and barn a few weeks ago by fire believed to be of incendiary origin. The stock was saved but all household goods and clothes were destroyed with an estimated loss between \$1200 and \$1500 and no insurance. The family consisting of Mr. and Mrs. Lowe and four children are occupying the Martin place until he can rebuild, which he hopes to do next fall.

The fire started about 3 o'clock in the afternoon in the barnyard and spread rapidly. One cow was badly scorched but recovered. Mr. Lowe built the house last fall and the loss is a severe blow especially with no insurance to assist in rebuilding.

THE STUDEBAKER LIGHT-SIX TOURING CAR

A Real Achievement in Dollar-for-dollar Value

The thousands of Studebaker Light-Sixes in daily use are the best possible assurance of what may be expected next year—or several years hence—of the Light-Six you buy today.

For after all, the best way to judge a new motor car is by what it has done—how it has stood up in service—the satisfaction it has delivered.

We sincerely believe that the Light-Six Touring Car, with its improved all-steel body, is the sturdiest, handsomest, most comfortable, most dependable and economical low-priced car built.

The machining of all surfaces of the crankshaft and connecting rods, to which is largely due its practical absence of vibration, is a practice used by Studebaker exclusively on cars at this price and is found only on a few other

cars whose selling prices are from three to ten times as high as the Light-Six.

The one-piece, rain-proof windshield with parking lights set in the base, is a joy to the driver—nothing to mar his view of the road ahead. Deep, fat cushions are upholstered in genuine leather. Curtains, bound on three sides by steel rods, open with the doors and provide closed car coziness in bad weather?

The most seasoned driver will find a new thrill in the smooth, quiet, steady performance of the Light-Six—and in its ease of handling, and in the way it performs in high gear at low speeds—eliminating constant gear shifting.

The name Studebaker has stood for high grade transportation, quality, value and integrity for 71 years.

These advantages, combined with the extra years of service it gives, makes the John Deere a mighty profitable mower investment.

JOHN DEERE MOWER The Mower with the Balanced Gears

The driving gears on the John Deere are balanced—one set offsets the thrust of the other set. This eliminates side wear and strain. This mower transmits maximum power to the high grade carefully-fitted knife—that's why the John Deere does a better job of cutting and pulls lighter.

Another feature—if after years of use, lag develops in the cutter bar, this can be taken out—the bar is aligned by a simple eccentric adjustment. The John Deere handles easily. The bar can be raised high with the foot lever to pass over ordinary obstructions. With the hand lever an extremely high lift can be secured quickly and easily. It's no job to keep the John Deere in good running order. All parts are easily replaced; adjustments easily made—its simplicity is a real feature.

Be sure to see this mower before you buy. It's the best mower we have ever seen.
